Fax: 313.361.4770 www.voyageuracademy.com

August 15, 2014

Dear Parents and Community Members:
We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2013-2014 educational progress for Voyageur Academy. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact Krystal Bell for assistance.

The AER is available for you to review electronically by visiting the following web site www.voyageuracademy.com and clicking on the "Annual Education Report" link at the top of the page or you may review a copy from the school's office at your child's school.

The state has identified some schools with the status of Reward, Focus or Priority. A Reward school is one that is outperforming other schools in achievement, growth, or is performing better than other schools with a similar student population. A Focus school is one that has a large achievement gap in $30 \%$ of its student achievement scores. A Priority school is one whose achievement and growth is in the lowest $5 \%$ of all schools in the state. Our school has not been given one of these labels.

Voyageur Academy is in the $9^{\text {th }}$ percentile so we are faced with the challenge of immediately improving student achievement and proficiency rate for students at Voyageur Academy. The school is taking the following steps to improve student achievement:

1. Continue to analyze demographic perception, student achievement, and program and process data to identify areas of need.
2. Differentiate instruction for all students. Teachers will use the workshop model to work with students in small groups.
3. Provide additional instructional support for students at-risk of not meeting challenging State standards through small group or one-on-one instruction and extended learning time beyond regular school hours, including after school and summer.
4. Provide additional instructional support for students at-risk of not meeting challenging State standards through providing high quality, on-going professional development for teachers and support staff.

Student achievement data, including State test data, NWEA data, and local and formative assessment data (including subgroup analysis) is analyzed and discussed by the Leadership Team or a designated School Improvement Team. Results of the analysis determine the school's focus areas and are shared and confirmed by the following stakeholders: 1) Staff, 2) Parents, and 3) Board members.

We have determined that an increased focus on differentiation of instruction will improve overall student performance, particularly through meeting more directly the needs of the school's special education learners. Teachers will work with support staff in the development of targeted intervention for students with disabilities, and this intervention will be offered both during the regular school day (during workshop time) as well as after school. Additionally, increased differentiation and academic enrichment opportunities should be provided for higher-level learners as well. Summer programming will also be enhanced to ensure that the school becomes increasingly effective in mitigating summer loss. Based on this data, intervention is needed in focus areas of both reading and mathematics, for all grade levels.

Parents, caretakers and family are a critical part of a child's learning and academic success. Parents can become involved in the following ways:

- Participate on the School Improvement Planning Team or in Title I/School Improvement Planning Meetings.
- Volunteer in their child's classroom, assist students at home with homework and ensure students are reading and practicing math daily.
- Attend parent learning events hosted by the school.
- Utilize the school's Parent Room.
- Visit Power School for communication of students' progress and grades.
- Join a Parent Committee.
- Attend Parent-Teacher Conferences.
- Attend Parent Nights, which often teach parents reading and/or math skills/activities to use at home.
- Attend Parent Trainings which include learning how to understand state test scores.

State law requires that we also report additional information.

## 1. PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL

2013-2014
Voyageur Academy is a state-funded, public school academy. Therefore, there is no cost to attend the Academy. The school is open to any child wishing to attend. Students must be ageappropriate for their respective grade, and they must reside in the state of Michigan.

By law, Voyageur Academy cannot restrict enrollment based on selection criteria. Voyageur Academy can, however, limit the total number of students who may attend the school. If the number of applications exceeds the number of available openings, a random selection process will determine who attends the school.

Voyageur Academy's open enrollment period is from the first day of the current school year until 5:00 p.m. on the last business day of February of the current school year. During this enrollment period, all applications get equal consideration regardless of date submitted. Following the close of open enrollment, if the number of applications does not exceed the number of open seats, all students will receive a notice of acceptance into their respective grades. If applications received exceed offered seats in any grade level, a random selection process will take place for all grade levels. Names are randomly selected until all offered seats have been filled. Any remaining names are selected to establish waiting list priority.

Once students are enrolled and remain enrolled, they will remain eligible to be re-enrolled at the school for successive years without having to reenter the random selection process. However, they will be requested to complete a re-enrollment form by the end of the open enrollment period showing intent to re-enroll for the subsequent school year. All applicants on a waiting list must resubmit an application for the following school year during the next open enrollment period.

In order to accommodate parents who have more than one child eligible for enrollment, siblings of accepted and currently enrolled students are given enrollment priority over students who have no such siblings. Siblings of currently enrolled students at the school will be drawn first in the random selection process for offered seats. In addition, if a child is selected during the random selection process, that child's sibling will be offered the first available offered seat in his/her respective grade. Though siblings are afforded priority for offered seats, they are not given priority over a child previously enrolled.

Should offered seats remain available after the close of open enrollment; students will be accepted on a first-come, first-served basis until offered seats are no longer available. Applications are date and time stamped upon submission, and students are admitted in the order their application is received. Applications will be accepted after offered seats are filled and will be placed on a waiting list in the order received.

2012-2013
Voyageur Academy is a state-funded, public school academy. Therefore, there is no cost to attend the Academy. The school is open to any child wishing to attend. Students must be ageappropriate for their respective grade, and they must reside in the state of Michigan.

By law, Voyageur Academy cannot restrict enrollment based on selection criteria. Voyageur Academy can, however, limit the total number of students who may attend the school. If the number of applications exceeds the number of available openings, a random lottery will determine who attends the school.

Voyageur Academy's open enrollment period is from the first day of the current school year until 5:00 p.m. on the last business day of February of the current school year. During this enrollment period, all applications get equal consideration regardless of date submitted. Following the close of open enrollment, if the number of applications does not exceed the number of open seats, all students will receive a notice of acceptance into their respective grades. If applications received exceed offered seats in any grade level, a random selection process will take place for all grade levels. Names are randomly drawn until all offered seats have been filled. Any remaining names are drawn to establish waiting list priority.

Once students are enrolled and remain enrolled, they will remain eligible to be re-enrolled at the school for successive years without having to reenter the random selection process. Applications are date and time stamped upon submission, and students are admitted in the order their application is received. Applications will be accepted after offered seats are filled and will be placed on a waiting list in the order received.

## 2. THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN

## 2014-2015

## A. Describe how data led your School Improvement Team to select your school's improvement objectives in the core academic curriculum

Voyageur Academy is now under the direction of a new management company. This year's School Improvement Plan is based on school's previous years' lack of progress towards student achievement. The school's School Improvement Team will review data formally and informally throughout each school year as part of its continuous school improvement process. In summer

2014, the school reviewed school and student performance data and perceptual data aligned with the Michigan School Improvement Framework. This review included the following data, among others:

- Student achievement on norm-referenced assessments, including Performance Series, (MEAP), and classroom assessments
- Student demographics
- Discipline, tardy, truancy, and attendance rates
- Parent surveys
- Staff surveys and teacher quality information
- Programs and Processes Data

As a result of the School Improvement Team's review of data, priority improvement objectives in the core academic curriculum were selected for the upcoming school year.
B. Describe your implementation plan for the core academic improvement objectives identified in your school improvement process. You may choose to describe your overall curricular implementation plan or you may choose to describe the plan in each content area

Students will be assessed 3 times using the Northwest Evaluation Association (NWEA) and teachers will use the information to differentiate instruction in the classroom. Teachers will use small group instruction to meet the needs of all students in the classroom.
C. Did the SIP do what it set out to do? Describe the evaluation process that led you to this conclusion.

No, the school did not make significant improvement towards its goals.
The School Improvement Team formally reviewed progress against its 2012-13 SIP goals and objectives in summer 2014, as part of its preparation for the 2014-15 school year. A review of student performance data and other data pertaining to the school's selected focus area was conducted in order to evaluate progress toward meeting its goals. Specific data evaluated includes that collected through MEAP assessments, Performance Series assessments, summative assessments, and formative assessments. The evaluation process includes ascertaining the degree to which each goal has been met or what progress has been made toward each goal.
D. Describe how the evaluation of data and the current year's school improvement process led your school improvement team to select your school's improvement objectives in the core academic curriculum for the next school year

The School Improvement Team's evaluation of data revealed key focus areas for improvement. Identified through the process were specific student performance targets in English Language Arts, Mathematics, Science and Social Studies.
E. How was this year's school improvement process similar or different from last year's process?

On the whole, this year's school improvement process was different than last year's process due to the fact that the approach was intentional. A skeleton of the School Improvement Team met formally in the summer both to evaluate progress against the prior year's identified school improvement goals and to assess data and identify school improvement goals for the next year.
3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL

2014-2015

Voyageur Academy is a charter school in the southwest community of Detroit with a diverse population focused on providing their students with the opportunity to attend and complete college. Students are given small group instruction throughout the day in the subject areas of math and reading which allows for individualized instruction to meet their needs. There will be a strong partnership between the students, parents, staff and community so that collectively we can accomplish our challenging goals. Students will be taught oral communication skills as well as skills necessary to be a productive citizen.

Our goal of preparing students for college success has required us to take a unique view in terms of our curriculum. Our goal is to graduate students who have not only had the opportunity to experience academic excellence, but have acquired the knowledge and skills necessary to be successful in high school and college. What makes our curriculum particularly unique is that it has been developed to support state standards with a college-bound approach.
4. IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL

2014-2015

Our curriculum was developed based on the analysis of standards and assessment experts across the nation, including groups such as the Noble Network and ACT ${ }^{\oplus}$. This analysis, conducted by American Promise Schools, comprehensively researched what students need to know to be successfully prepared for rigorous high school and college educational
programming. Since college readiness goes beyond academic preparedness, the curriculum not only includes learning goals in core academic and co-curricular areas, but also includes an integrated character development component.

The curriculum's objectives are aligned to those identified by the Michigan Grade Level Content Expectations (GLCE) and the Common Core. Moreover, all students are expected to reach the GLCE goals. However, modifications/accommodations are sometimes necessary to ensure learning for all students. This support comes through classroom differentiation, in-class support services, targeted programmatic resources, out of class intervention, and out of school time opportunities-all of which are designed to accelerate student growth trajectories.

The only variance in our curriculum when compared to the MI Curriculum Framework is that we have a Scholar Values component. We believe great schools develop both a student's heart and mind, and the Scholar Values program is designed to support parents' efforts to teach character at home by reinforcing and modeling universal human values, such as hard work, perseverance, respect, and integrity. This Scholar Values program is explicit and integrated with the school's core curriculum. A different value is featured each month of the school year. Teachers model behavior that exemplifies the value and recognize and praise students when they do the same.

A copy of the core curriculum can be obtained by parents via written request submitted to the school administration.

## 5. THE AGGREGATE STUDENT ACHIEVEMENT RESULTS FOR ANY LOCAL COMPETENCY TESTS OR NATIONALLY NORMED ACHIEVEMENT TESTS

Voyageur Academy is now under the direction of a new management company. Therefore we are currently unable to provide the student achievement results from previous years. However, included in this report are aggregate student data from the standardized state testing results.

## 6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

Voyageur Academy is now under the direction of a new management company. Therefore, we currently do not have data related to the number and percent of students represented at parent-teacher conferences for the 2013-2014 school year. However, this year we will work towards ensuring our parents actively participate in parent teacher conferences and hope that we will have a high turn out.

Although we have a challenging task ahead of the school this year, if we work collaboratively and collectively, we will be able to move in the right direction. Students' educational careers will be the basis for all decisions made by the school. The students will be our primary focus for student achievement, which will include individualizing instruction in the classroom. All
stakeholders will be held accountable for their part in educating our students, which will include students themselves. I know we can do it and our scores in the spring will be proof.

Educationally yours,

Krystal M. Bell, Principal
4321 Military Ave.
Detroit, MI 48210
